EDUCATION

B-tech Information of Technology
DSCET (Anna University)

04/2021 - 04/2025
Chennai , India

N.H.S College Education (10+2)

02/2017 - 02/2019

SKILLS

Programming Language

Java , Python & C.

Frameworks

Spring Boot, Hibernate

Version Control

Git

Operating Systems

Windows, Linux

Java Technologies

Java,J2EE,JDBC,Servlets,SOAP,WSDL

Databases

MySQL, Oracle

IDEs

Eclipse,IntelliJ IDEA

Web Technologies

HTML, CSS, JavaScript

PROJECT

Online Bookstore

- Developed a web application using Java, Spring Boot, and Hibernate.
- Implemented user authentication and authorization features.
- Integrated with a MySQL database for storing book details and user information.

Student Management System

- Created a desktop application using Java Swing for managing student records.
- Implemented CRUD operations for adding, updating, and deleting student information.
- Utilized MySQL database for storing and retrieving student data.

Electricity billing system

- The Electricity Billing System is a Java-based application designed to automate and streamline the process of calculating and managing electricity bills for residential and commercial consumers. The system aims to replace manual and error-prone billing methods with an efficient and accurate software solution.

CERTIFICATES

- Creating interactive meeting apps for Microsoft Teams.
- Certificate of Achievement in Communication Skills
- Oracle Certified Java Programmer (OCP) |
